Philadelphia Man Floored His Opponent Until Captain Gaffney Interfered.

LOSER MUCH DISAPPOINTED.

Claimed That He Did Not Mind the Punching and That He Could Have Continued Indefinitely.

Captain Gaffney of the Ninth Police District served as informal referee in the out at the West End Club last evening calling the contest to a halt after O'Brien nad battered Carter about the ring for wo rounds and a half. O'Brien received

Referee Sharpe. cision after the respective showing of the men, about as violently perturbed a pugilist as could be found within the United States, was his opponent. Carter protested vigorously from the moment he was led to his corner, claiming that he absorbed all such small matters as knock-

lowns in the course of the bout. So far as the battle was concerned, it was a series of quick, snappy hooks and So far as the battle was concerned, it was a series of quick, snappy hooks and punches by O'Brien, landing on any portion of Carter's face and body he chose to place them. O'Brien fought as if it was a six-round go and floored Carter three times in the second round.

Starting from the tap of the gong, O'Brien took the aggressive, feinted rapidly for a moment and cut loose with three rapid lefts and rights, which joited Carter in the face. A few more joits to face and body completed the blows landed before Carter made a ponderous swipe in Jack's direction. O'Brien side-stepped with ease and hooked his man savagely until Carter was reeling around the ropes. Early in this round, a quick left to Carter's nose brought the blood in a stream and he presented a grewsome appearance in a few moments. O'Brien gave him no rest, hooked him on the face and jaw with rapid rights and lefts and ended the round without a single blow of moment having reached him.

Carter made desperate efforts in the second to land a right or left swing, sending his arms out wildly and alternately. O'Brien stepped in and out with his quick punches, twice sprinting around the end of the ring to get out of a place seemingly tight.

POLICE INTERFERENCE.

POLICE INTERFERENCE. Half way through the round, after each man had been cautioned for apparent use of his elbows, and after O'Brien had been warned for diving into clinches, head first, in a manner which brought comment from Carter's corner, Jack sent over a savage left which sent Carter crashing to the floor. He rose on the count of nine, floundered to the ropes on the adjoining side of the ring and was promptly sent down again by a savage blow to the jaw. Once more arising, he was floored on the opposite side by another punch to the mouth, and the gong rang soon after he had gained his feet.

The third round was short and sharp. O'Brien landed fiercely and repeatedly, showing signs of the pace he had been setting, while Carter earned encouraging cries from the crowd from the desperate manner in which he was trying to land with his right in clinches. Twice he sent in blows which seemed to make O'Brien drnw back, but midway through the round a right joit sent him sprawling to the floor, badly dazed.

As Referee Sharpe started to toil off the count, Captain Gaffney rose and motioned to him, ordering him to stop the fight. Sharpe gave O'Brien the decision. The winner seemed tired from his exertions.

REPUBLIC SPECIAL.
Columbia, Mo., April 28.—The conference heated discussion as to the position ath-etics should take in university life. Several of the presidents were of the opinion of, and that the professional coaching sys-tem should be done away with.

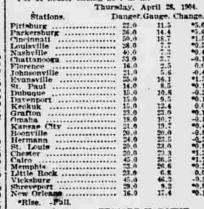

tem should be done away with.

Stricter rules for the prevention of professionalism were recommended. It was the almost unanimous decision of the presidents that all college athletics should be brought under university control. The idea of charging all students a fee for the support of athletics was discussed favorably.

The fact that Western university students are gradually adopting the methods of life, an dindifference to study, of the Eastern universities, was cause for some discussion. It was generally admitted that Western university students were growing less studious, but the discussion did not result in the adoption of any effective means to preserve the old Western university spirit in regard to study.

FESTIVAL HALL GLOWS IN FULL ILLUMINATION

Last Evening.

Festival Hall, was a blaze of light last night. For the first time since it reared its stately dome on Art Hill, the dome which is said to be larger than any other in the world, not excepting that of St. Peter's in Rome, it figured in the general illumination of the Exposition palaces, which was on last night for the last time

Last night's illumination was the most tion of the lighting effects on the buildngs. While every exhibit palace in the grounds had previously had a test of the lighting it was not until last night that Festival Hall was illuminated.

The lighting of the crowning piece of architecture in the main picture of the Exposition added immeasurably to the general effect. The great circular structure on the topmost part of Art Hillistood forth against the shadows of the night, a circle of light from top to bottom.

From its base flowed a stream of light made up of many incandescent lamps on the runways and falls of the cascades. At the very summit of the dome, whereon stands the gilded figure of Miss Longman's "Victory," glowed a mass of lights. From that point to the base of the dome was shadow. Around the base of the hugedome was a circular rim of lights, broken at intervals by solid circles of light, which flamed like immense eyes. The beautiful lines of the rest of the building were brought out vividly by the myriads of lights. The Colonnade of States and the two restaurant pavillous flanking it at cither end were also illuminated, as were the side and center cascades. The lighting of the crowning piece of

in the dark with disease. One false step, one mistake, and the attack comes swift and sudden. The mistake which commonly opens the way for an attack by disease is neglect of the symptoms of stomach trouble. When eating is followed by undue fulness, belchings, sour or bitter risings, etc., disease is attacking the stomach. The best way to frustrate such an attack is to use Dr. Pierce's Golden Medical Discovery. It cures diseases of the ical Discovery. It cures diseases of the stomach and other organs of digestion and mutrition, and makes the body

strong and healthy.

"I was suffering very much with my head and stomach." writes Mrs. W. C. Gill, of Weldon, Shelby Co., Ala., "head was so dirzy when I would raise up in bed would fall right back. Could eat but very little, in fact scarcely anything, there seemed to be a heavy weight in my shomach so I could not rest; I had to belch very often and would womit up nearly everything I ale. I was in a bad condition. I took four bottes of Dr. Pierce's Golden Medical Discovery and five of his 'Favorite Prescription' and am now well and hearty. I feel like a new woman and give Dr. Pierce's medicines credit for it all. I had taken medicine from physicians without any benefit as I could see."
